

## **“2015 Fastest Growing Private Companies San Diego”**

Reilly Financial Advisors was recently named as one of the *Fastest Growing Private Companies in San Diego*. The annual list of the *Fastest Growing Private Companies in San Diego* was created by the *San Diego Business Journal*, title sponsors Cox Business, McGladery LLP and Robert Half, gold sponsors Abacus Data Systems, Bank of America, ESET North America, and MRC, and in association with GreenRope.

This survey and awards program was designed to identify, recognize, and honor the fastest growing private companies in San Diego. The final 100 represent the efforts of companies from many industries and disciplines that have succeeded by innovation, sustaining their business model and inspiring their talented, dedicated staff to reach for aggressive goals.

To be considered for participation, companies had to fulfill the following eligibility requirements:

- Business must be based locally, privately held and independent;
- Cannot be a division or subsidiary of another organization, public or private;
- Be in business the entire year of 2014;

Companies from across the county entered the two-part survey process to determine the *Fastest Growing Private Companies in San Diego*. The first part consisted of reviewing the financial details of each organization’s business operations in 2012, 2013, and 2014. Then the information was extensively analyzed and verified by independent certification over several months.

The list-making companies were honored at an awards ceremony on July 9. A special issue of the *San Diego Business Journal* that profiles the companies selected as the *Best Places to Work in San Diego* was published on July 13.
